

**FOR RELEASE**

## **I-VIRTUAL NAMED AS CES 2023 INNOVATION AWARDS HONOREE**

**Metz, France, November 16th, 2022** – i-Virtual today announced that it has been named a [CES® 2023 Innovation Awards Honoree](#) for its product [Caducy](#).

This year's CES Innovation Awards program received a record high number of over 2100 submissions. The announcement was made ahead of [CES 2023](#), the world's most influential technology event, happening Jan. 5-8 in Las Vegas, NV.

The CES Innovation Awards program, owned and produced by the [Consumer Technology Association \(CTA\)®](#), is an annual competition honoring outstanding design and engineering in 28 consumer technology product categories. Those with the highest rating receive the "Best of Innovation" distinction. An [elite panel of industry expert judges](#), including members of the media, designers, engineers and more, reviewed submissions based on innovation, engineering and functionality, aesthetic and design.

**Caducy is a product for measuring vital signs by selfie in a simple web page. No app, no device!**

Caducy is a medical device for measuring contactless by a simple 30-second video selfie physiological parameters: Heart Rate, Respiratory Rate, Blood Pressure and well-being variables: Heart Rate Variability and Stress Level. Its aim is to improve access to the healthcare system for all and to address the need to improve remote patient monitoring capabilities.

*"i-Virtual proudly celebrates the initiative and innovation of its employees, especially when it results in increased patient healthcare," stated Chief Executive Officer [Gaël Constancin](#) "We are honored to be recognized by the CES® 2023 Innovation Awards."*

New for CES 2023 — CES has partnered with the [World Academy of Art and Science \(WAAS\)](#) to showcase the critical role of technology in support of the **United Nations** efforts to advance human security around the world. For CES 2023, CTA

introduced a new category of Innovation Awards showcasing technologies advancing human rights. The Human Security for All category includes eight new tech subcategories.

The CES 2023 Innovation Awards honorees, including product descriptions and photos, can be found at [CES.tech/innovation](https://ces.tech/innovation). More will be revealed in January. Many honorees will showcase their winning products in the Innovation Awards Showcase at CES 2023.

Owned and produced by CTA, CES 2023 will take place in Las Vegas on January 5-8, 2023, with Media Days taking place January 3-4, 2023. Attendees will experience new technologies from global brands, hear about the future of technology from thought leaders and collaborate face-to-face with other attendees. The show will highlight how innovations in sustainability, transportation and mobility, digital health, the metaverse and more are addressing the world's greatest challenges. Audiences will hear from industry experts during live keynotes, including leaders from John Deere and AMD. Visit [CES.tech](https://ces.tech) for all CES 2023 updates, [registration details](#) and the [media page](#) for all press resources.

#### **About i-Virtual**

i-Virtual develops tools to improve access to the healthcare system by transforming available connected devices (smartphones, tablets and computers) into medical devices. Its main product, Caducy, addresses the need to improve remote patient monitoring capabilities through its ability to measure physiological variables just by taking a video selfie.
